Dear Dr Weisberg,

I wonder if you can help your locals in the Naval regulation hung down the procedure in for a post mortem (England) or autopsy (U.S.A).

I was most impressed by your use of the autopsy on Lee Oswald, but naval regulations valid in Maryland (+ all states) would have certain advantages, even though the result would presumably be much the same

Sincerely yours
Chris Cantler

I expect you to deduct for your charges for the sum you hold. If that is not sufficient I will send you more.
